

# Fabry masterclass

## Scientific Coordinator

Prof. Antonio Pisani

## Faculty

Ivana Capuano  
Sirio Coccozza  
Guido Iaccarino  
Massimo Imbriaco  
Eleonora Riccio  
Stefano Tozza

## Tutors

Maria Amicone  
Maria Lugia Sellitti

## SCIENTIFIC RATIONALE

Fabry disease is a rare, progressive, multisystem lysosomal storage disorder that requires early recognition, accurate diagnosis and structured long-term monitoring. The heterogeneity of its clinical presentation and the multisystem nature of the disease make patient management complex and strongly dependent on an integrated, multidisciplinary approach.

This masterclass is designed for medical specialists involved in the care of patients with rare and metabolic diseases. The program offers a practice-oriented educational experience hosted at the Azienda Ospedaliera Universitaria Federico II, combining focused scientific updates with structured clinical activities.

Through supervised activities across various hospital departments, participants will deepen their understanding of diagnostic pathways, discuss real-life clinical cases, and gain practical insight into therapeutic strategies, infusion management and patient follow-up.

The course aims to consolidate clinical competence and promote best practices in the management of Fabry disease.

## Registration Information

**Official language:** English

**Continuing Medical Education:** UEMS/EACCME and Italian CME credits will be requested

Educational grants are available for nephrologists, neurologists, internal medicine specialists and cardiologists working in public or private institutions involved in the diagnosis of rare diseases. To apply for an educational grant, please send an email to [alessandro.capasso@fclassevents.com](mailto:alessandro.capasso@fclassevents.com)

Applications will be reviewed by the Scientific Board, and applicants will be notified of the outcome within a few days of submission

## Masterclass venue

**Azienda Ospedaliera Universitaria Federico II,**  
Via Sergio Pansini, 5, 80131 Napoli

## ACCOMMODATION FOR PARTICIPANTS:

**Hotel NH Napoli Panorama,** Via Medina, 70, 80133 Napoli

second edition  
**Fabry**  
masterclass

**Naples**  
**June, 23-24**  
**2026**

---

**Day 1 - June 23**

---

**09:00 - 09:30** Welcome and introduction to the Masterclass - **A. Pisani**

---

**09:30 - 12:00** Theoretical-practical session in the departments  
(1st rotation)

*4 groups, rotating through theoretical-practical activities in the departments of Internal Medicine, Nephrology, Neurology, and Radiology.*

**Internal Medicine - G. Iaccarino**

*Theoretical part*

**Cardiovascular involvement in Fabry disease**

**Exercise tolerance**

*Practical part*

**Cardiological examination, ECG and echocardiography;  
exercise stress test / cardiopulmonary test**

---

**Nephrology Department - A. Pisani**

*Theoretical part*

**Management of renal aspects of Fabry disease**

*Practical part*

**Nephrological examination, renal ultrasound and renal biopsy**

---

**Clinical Neurophysiology Department - S. Tozza**

*Theoretical part*

**Signs and symptoms of peripheral nervous system involvement**

*Practical part*

**Neurological examination; assessment of small fiber involvement (QST, DST, skin biopsy)**

**Radiology Department - M. Imbriaco, S. Cocozza**

**Imaging studies in Fabry disease**

**(CT and MRI, neuroradiological aspects)**

---

**12:00 - 13:00** Management of infusions in patients with Fabry disease

*Practical session (Groups A + B)*

**13:00 - 14:00** Lunch

**14:00 - 16:30** Theoretical-practical session in the departments

**(2nd rotation)**

**16:30 - 17:00** Closing of Day 1 and presentation of Day 2 - **A. Pisani**

---

**Day 2 - June 24**

---

**09:00 - 11:30** Theoretical-practical session in the departments  
(3rd rotation)

**11:30 - 12:30** Management of infusions in patients with Fabry disease

*Practical session (Groups C + D)*

**12:30 - 13:30** Lunch

**13:30 - 16:00** Theoretical-practical session in the departments

**(4th rotation)**

**16:00 - 16:30** Final Q&A session and conclusions - **A. Pisani**

With an unconditional educational grant from
